Each member is required to read, understand and agree to all iRacing Rules prior to participation in any iRacing Off-Road Championship Series event. The iRacing Rules form a contract between each iRacing member and iRacing.com Motorsport Simulations, LLC. An iRacing member may accept the iRacing Rules by accepting the click-through terms on iRacing.com, or registering to participate (or participating) in any iRacing Off-Road Championship Series event.

All information in this document is subject to change.

RACE FORMATS AND REQUIREMENTS

CHAMPIONSHIP SERIES RACE FORMAT

- 8 week Season with no drop week; double features (equal in length and points) in each event
- Races are Wednesday at 8:45PM EST/ Thursday 00:45 GMT
- Race timing is subject to change for other considerations, such as television windows.

- Top 8 starters inverted for both features
- Race control may elect to reset track states live during events at its own discretion to simulate real-world track grooming between race sessions

CHAMPIONSHIP SERIES LIVERIES

iRacing recognizes the importance of teams to each of its World Championship series, as drivers work together to build setups before each race event to produce a more exciting and competitive show. iRacing does not make an effort to assign which drivers are competing with which teams in World Championship events. However, iRacing reserves the right to limit the amount of cars in any given series that are carrying the same team insignia or primary sponsorship on a case-by-case basis.

All team liveries shown on official race broadcasts are subject to iRacing approval and can be rejected for any reason. iRacing will communicate a deadline for livery submissions to each driver in a separate bulletin prior to the start of the season. For parties looking to be involved with a World Championship series on a larger level, sponsorship of the series itself is available.

CHAMPIONSHIP SERIES DRIVER ELIGIBILITY

Once a member earns an iRacing Off-Road Championship Series license, he or she shall retain that license for the entire season so long as the driver maintains a safety rating of 1.0 or higher at that license class. If a driver falls below a 1.0 safety rating, their WCS license is temporarily suspended, however, that driver can drive at the lower class levels and may regain their Pro and World Championship licenses by achieving a 4.0 or higher safety rating. A driver could also permanently or temporarily lose their license for race incidents or other actions deemed detrimental to the series.

All drivers are required to have a webcam, mobile phone or tablet connected, pointed at the driver in their rig, as we will be utilizing this throughout the event to bring in driver shots and run interviews. Please frame your video nicely, in landscape and make sure you are clearly visible. Furthermore, all drivers will be required to be on an audio communications service during the event. You should be prepared for an interview at any time. Drivers are required to maintain a stable internet connection that allows them to have proper bandwidth for in sim race activity as well as webcam streaming capability. Any competitor that falls below a threshold as determined by iRacing may be subject to race disqualification and further review of series eligibility. Details on how to join the video and audio service will be shared with the drivers prior to each race.

In any case where a driver is rendered ineligible for the iRacing Off-Road Championship Series, the next eligible driver from the iRacing Pro 4 Off-Road Racing Series will be considered as a replacement driver, pending their acceptance of the above terms.
