CHAMPIONSHIP SERIES LIVERIES

iRacing recognizes the importance of teams to each of its World Championship series, as drivers work together to build setups before each race event to produce a more exciting and competitive show. iRacing does not make an effort to assign which drivers are competing with which teams in World Championship events. However, iRacing reserves the right to limit the amount of cars in any given series that are carrying the same team insignia or primary sponsorship on a case-by-case basis.

For the Grand Prix Turn Racing iRacing Series, there will be a limit of two (2) cars per team. These cars should look nearly identical, with the same paint schemes and colors, but may carry different primary and secondary sponsorships. No entity may serve as primary sponsor of more than two cars per team. iRacing reserves the right to determine what constitutes a primary sponsorship within the series. iRacing also reserves the right to approve or deny any requested team changes during the season at its own discretion. All decisions made by iRacing regarding livery approvals are final.

All team liveries shown on official race broadcasts are subject to iRacing approval and can be rejected for any reason. iRacing will communicate a deadline for livery submissions to each driver in a separate bulletin prior to the start of the season. For parties looking to be involved with a World Championship series on a larger level, sponsorship of the series itself is available.

CHAMPIONSHIP SERIES DRIVER ELIGIBILITY

Once a member earns an Grand Prix Turn Racing iRacing Series license, he or she shall retain that license for the entire season so long as the driver maintains a safety rating of 1.0 or higher at that license class. If a driver falls below a 1.0 safety rating, their WCS license is temporarily suspended, however, that driver can drive at the lower class levels and may regain their Pro and World Championship licenses by achieving a 4.0 or higher safety rating. A driver could also permanently or temporarily lose their license for race incidents or other actions deemed detrimental to the series.

All drivers are required to have a webcam, mobile phone or tablet connected, pointed at the driver in their rig, as we will be utilizing this throughout the event to bring in driver shots and run interviews. Please frame your video nicely, in landscape and make sure you are clearly visible. Furthermore, all drivers will be required to be on an audio communications service during the event. You should be prepared for an interview at any time. Drivers are required to maintain a stable internet connection that allows them to have proper bandwidth for in sim race activity as well as webcam streaming capability. Any competitor that falls below a threshold as determined by iRacing may be subject to race disqualification and further review of series eligibility. Details on how to join the video and audio service will be shared with the drivers prior to each race.

In any case where a driver is rendered ineligible for the Grand Prix Turn Racing iRacing Series, the next eligible driver from the GP Turn Racing iRacing Qualifying Series will be considered as a replacement driver, pending their acceptance of the above terms.
