Upon reaching an agreement, drivers and teams must notify Otto.Szebeni@iracing.com immediately for the free agent pool to be updated. Drivers that do not come to an agreement with a team during this period may be replaced with a driver from the eNASCAR Road to Pro Contender Series at iRacing's discretion.

Championship Series Driver Eligibility

Once a member earns a eNASCAR Coca-Cola iRacing Series license, he or she shall retain that license for the entire season so long as the driver maintains a safety rating of 1.0 or higher at that license class. If a driver falls below a 1.0 safety rating, their WCS license is temporarily suspended, however, that driver can drive at the lower class levels and may regain their Pro and World Championship licenses by achieving a 4.0 or higher safety rating. A driver could also permanently or temporarily lose their license for race incidents or other actions deemed detrimental to the series.

All eNASCAR Coca-Cola iRacing Series drivers will be required to sign with an Official Team for the 2024 season. Drivers who do not sign with an Official Team may not be allowed to compete, or may be allowed to compete with a team livery, car number, and/or manufacturer under iRacing's control.

In any case where a driver is rendered ineligible for the eNASCAR Coca-Cola iRacing Series, the next eligible driver from the eNASCAR Road to Pro Contender Series will be considered as a replacement driver, pending their acceptance of the above terms and willingness to sign with any Official Team that has a driver vacancy.

Championship Series Liveries

iRacing recognizes the importance of teams to each of its World Championship series, as drivers work together to build setups before each race event to produce a more exciting and competitive show. iRacing does not make an effort to assign which drivers are competing with which teams in World Championship events. However, iRacing reserves the right to limit the amount of cars in any given series that are carrying the same team insignia or primary sponsorship on a case-by-case basis.

All team liveries shown on official race broadcasts are subject to iRacing approval and can be rejected for any reason. iRacing will communicate a deadline for livery submissions to each driver in a separate bulletin prior to the start of the season. For parties looking to be involved with a World Championship series on a larger level, sponsorship of the series itself is available.

All drivers are required to have a webcam, mobile phone or tablet connected, pointed at the driver in their rig, as we will be utilizing this throughout the event to bring in driver shots and run interviews. Please frame your video nicely, in landscape and make sure you are clearly visible. Furthermore, all drivers will be required to be on an audio communications service during the event. You should be prepared for an interview at any time. **Drivers are required to maintain a stable internet connection that allows them to have proper bandwidth for in sim race activity as well as webcam streaming capability.** Any competitor that falls below a threshold as determined by iRacing may be subject to race disqualification and further review of series eligibility. Details on how to join the video and audio service will be shared with the drivers prior to each race.

Championship Series Officiating

RACE REVIEW

Every race will be reviewed by the Race Director live and/or through replay/broadcasts. iRacing may take action against a driver for rules infractions or any action deemed detrimental to the series including but not limited to points adjustments, suspension or other penalties.

PROTESTS

Drivers may file a protest to the Race Director (race.director@iracing.com) with a detailed description and a replay for review if one suspects misbehavior or violations to the sporting code.

- By participating in this series, every driver agrees to accept the decisions of iRacing.com.
- A driver who is suspended based on incidents in this series may or may not also be suspended from iRacing.
- The race director will only communicate with impacted team drivers about incidents, race rules and any series related competition questions.
- All protests must be submitted within 24 hours of the incident report being posted.

APPEALS

- Only a driver that has been penalized may appeal a decision.
- A driver may appeal a protest decision by e-mailing race.director@iracing.com with a replay and details on why they think the wrong decision has been made.
- Appeals must be made within 24 hours of the incident report being posted.
- iRacing may take up to 7 days to rule on any appeals.
- Appeals are reviewed by the appeal board which is independent of the race director.
- All decisions are final.

ADVERSE AND UNEXPECTED CONDITIONS AND INTERVENTION POLICIES

In iRacing as in real racing, adverse and unexpected conditions may occur that may impact the outcome of a race. Within iRacing, these adverse and unexpected conditions may include, but are not limited to: unexpected software/hardware actions or reactions, internet service provider issues or disconnections, or any other issues with normally automated procedures. These are similar in impact to conditions in real racing such as weather, part failure, or any other unforeseen circumstances that may alter the expected outcome of a race.

When these situations arise during an active iRacing Pro race, competitors are advised that the race will continue to run as scheduled, and to continue competing as normal. After a post-race review of the circumstances at hand and how many drivers were impacted by the issue, iRacing at its sole discretion will determine if a contingency plan (including, but not limited to: drop weeks, reruns, or cancellations of races) will be implemented following the event.

While iRacing Pro races are staffed and observed by live officials, live officials will not directly intervene in most circumstances. Exceptions to this policy are determined at the sole discretion of the official(s) present. As in real racing, these decisions often

must be taken quickly and may have unintended consequences, so every effort will be made to intervene only in a manner that is fair for all competitors.

In all cases, iRacing officials will communicate as quickly as possible with all competitors about race control intervention in response to adverse and unexpected conditions. Competitors are expected to respect the decisions of race control in these matters, regardless of whether they are impacted positively or negatively. Excessive resistance, whether public or private, to race control decisions may result in disciplinary action.

Claiming Championship Series Prizes

PAYMENT OF CHAMPIONSHIP PRIZES

Unless otherwise agreed between an iRacing member and his/her team, all championship earnings will be paid directly to the iRacing member who won the championship prize at the end of the season. Upon request by a team that employs an iRacing member, with the consent of the iRacing member, and at iRacing's discretion, iRacing may pay championship earnings directly to such team, but only if the team **(a)** provides documentary evidence to iRacing that unambiguously authorizes such payment, **(b)** indemnities, defends and holds harmless iRacing from competing claims for championship prizes, **(c)** submits the affidavit of eligibility and other documentation specified below and **(d)** provides any specific documents and materials iRacing deems needed or appropriate for iRacing.com to comply with all tax reporting and withholding requirements, which for non-U.S. members or teams, may include an affidavit from the member or team, as applicable, that confirms such person or team is not a U.S. person and that such prize is not related to commercial activity in the United States.

Each prize winner will receive confirmation of his/her prize, with instructions on how to claim the prize, via email sent to the email address associated with his/her membership within ten days after the season ends. All payouts are payable via PayPal or bank wire. Recipient must provide either the email associated with their PayPal account or bank wire information including bank name, account holder name, account number, and ABA routing number.

Each winner (or a team acting on behalf of a winner) may be required to sign and return an affidavit of eligibility, liability waiver and publicity/intellectual property release within ten days of the date of winning notification. If a winner (or a team acting on behalf of a winner) is found to have violated any of the iRacing Rules, is otherwise disqualified, cannot be reached, or fails to take all actions required to claim the prize within the times specified, that winner will forfeit the prize and an alternate winner may be selected by iRacing. Winners will be announced as soon as feasible after all winners have been qualified.

A driver must be in good standing at the season end as determined by iRacing to be eligible for any prizes. Examples of drivers who may be deemed ineligible for prizes are drivers who are suspended from the series, or drivers who miss races without a waiver, especially the final race of the season.

DRIVER EXPECTATIONS

Drivers are required to represent the series and their team in a positive fashion in order to maintain their Pro and World Championship licenses. There is a very high level of competition and high community profile in this series; consequently, there are multiple additional conduct rules above and beyond the normal that exist only at this level. It is expected that each driver in this series will treat other drivers, teams, iRacing officials, employees, NASCAR, sponsors and the community with respect on and off the race track and will not bring the sport or iRacing into disrepute via their actions. The iRacing.com FIRST Sporting Code is in full effect for these series as applicable.
